

VIRTUAL  
REALITY  
IRELAND

## Dail100 - CASE STUDY

### Overview:

Virtual Reality Ireland capture the Dáil100 timeline, a temporary exhibition at Leinster House, in full 360 glory.

### Solution:

We captured the timeline with a series of 360 still images shot with our 8k resolution 360 camera. The camera height and positioning of the camera to ensure the timeline was clear and legible was key to this shoot.

### Outcomes:

We are currently working on the 360 edit to allow a wider audience to enjoy the Dáil100 forever more!
